

GLENDALE COUNTS

The U.S. Census determines federal funding for important community services that help support our families, and determine our fair share of representation in California and Washington D.C. The next Census is in Spring 2020. Let's ensure all Glendale residents are counted so we can put these resources to good use here at home!

Why the Census Matters

Every 10 years, people across the country and in California fill out the Census in order to have an accurate count of all people in the United States. The 2020 Census will help decide how billions of dollars will reach our families.

Your response to the Census helps determine funding for dozens of programs that provide essential resources to our community, including schools, child care programs, road maintenance projects, and social assistance programs.

It's Safe and Confidential

Information collected during the 2020 Census cannot be shared or used against you in any way. Your information is only used to generate statistics, cannot be shared with immigration or law enforcement agencies, and cannot be used to determine your eligibility for government benefits. Your privacy and security are taken seriously.
